

COMPANY ENVIRONMENTAL POLICY STATEMENT

Brandwells Construction Co Ltd recognises the importance of environmental protection and is committed to operating its business responsibly and in compliance with all legal requirements relating to the provision of building, civil engineering and groundworks contracting services. It is the Organisation's declared policy to cooperate with and maintain good relations with all regulatory bodies. To this end the Company will establish and maintain a Quality Management System compliant with ISO14001:2004.

It is the objective of Brandwells Construction Co. Ltd to carry out all measures reasonably practicable to meet and exceed its environmental objectives set out in its Environmental manual and to strive to continually improve environmental performance.

This objective will be achieved through:

- Assessing and regularly re-assessing the environmental effects of the Company's activities; taking such steps as necessary to deal with any issues identified.
- Training of employees in environmental issues
- Minimising the production of waste
- Minimising material wastage
- Minimising energy wastage
- Promoting the use of recyclable and renewable materials
- Eliminating or reducing the production of pollutants to water, land and air
- Controlling noise emissions from operations
- Minimising the risk to the general public and employees from operations and activities undertaken by the Company

This Policy is communicated to all employees, suppliers and sub-contractors and is made available to the public

This Policy is reviewed periodically to ensure that it remains compliant with the requirements of ISO14001:2004
